# Progress Report

- **Completed Pages:**
  - index (landing)
  - sign up
  - sign up success
  - sign in
  - about
  - community guidelines
  - contact
  - faq
  - help
  - privacy policy
  - returns policy
  - shipping policy
  - success stories
  - terms of use
  - home
  - tags (categories)
  - header-ul (header logged out)
  - header-lo (header logged in)
  - footer
  - nav (navigation bar)
- **Challenges Faced:**
  - Making sure the UI/UX I made from Figma was consistent and accurate. I ended up changing a few layouts and visuals.
  - Making it responsive to both Mobile and Desktop.
- **Solutions Applied:**
  - I stopped trying too hard to make the layout 100% accurate and instead focused on readability, and user-friendliness.
